MARKETING & PROMOTIONAL STRATEGY

STOP CHILD-TRAFFICKING

UNICEF

Describes trafficked children as “recruited, transported, transferred, harbored or received for the purpose of exploitation”. Children are forced into and threatened to undertake all sorts of activities, such as begging, pornography, manual labor, working in sex houses –all troubling images for the imagination of a human being with the slightest common sense and emotional intelligence.

The United Nations Office on Drugs and Crime (2006):

Defines trafficking in persons as “the recruitment, transportation, harboring or receipt of persons, by means of the threat or use of force or other forms of coercion, of abduction, of fraud, of deception, of the abuse of power, or of a position of vulnerability or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person, for the purpose of exploitation” (UNODC, 2006).

REGULATIONS

- **2020:** Trump issued an executive order on Combating Human Trafficking and Online Child Exploitation in the United States strengthening the efforts of the U.S. against human trafficking and child exploitation.
- **2018:** The Department of State (DOS) Trafficking in Persons (TIP) Office launched one Child Protection Compact Partnership.
- **2003:** The United Nations Protocol on Trafficking in Persons entered into force a globally binding instrument with an agreed definition of trafficking in persons, aiming to assist the victims of trafficking in persons with full respect for their human rights.
- **2002:** The Recommended Principles and Guidelines on Human Rights and Human Trafficking, encouraged all States and anti-human trafficking entities to place human rights at the center of all efforts to prevent and combat trafficking and to protect, assist and provide redress to victims.
- **1948:** The United Nations adopted and proclaimed the Universal Declaration of Human Rights, which articulates fundamental rights and freedom for all, including children.
